

RMF Systems

Filtrec Asia Pacific is proud to announce that we are now a stocking distributor for RMF Systems products.

This product goes hand in hand with our existing range of filtration products allowing us to cater for a larger variety of filtration applications.

Offering a great choice of proven desiccant breather technology and off-line filtration systems we know that this product line will strengthen our position as one of the front line providers of quality filtration solutions!

One of these solutions is that we are now offering a replacement for the Hydac N15DM002 filter element, being part number 35H02V.

Email or call us for any information you require on these or any other of our products.
